HIMANSHU SONI

Business Intelligence Developer | Data Analyst | SQL Developer | IOT/IIOT
+917580958295 | Hsoni2628@gmail.com | LinkedIn | Portfolio | Indore, Madhya Pradesh, India

Professional Summary

Results-driven Business Intelligence Developer with 4+ years of experience transforming **complex datasets** into actionable insights using **Power BI**, **MicroStrategy**, **SQL**, and **Python**. Proven track record of designing **20+ interactive dashboards,** reducing manual **reporting by 40%,** and **implementing scalable ETL pipelines**. Expertise in **data modeling, warehousing, visualization**, and cross-functional collaboration to drive data-driven **decision-making** and operational excellence.

Key Achievements

Dashboard Portfolio: Delivered a comprehensive BI solution suite covering sales performance, operational efficiency, financial KPIs, and customer analytics, supporting **50+ daily business users.**
ETL Optimization: Reduced data processing time by **45%** by optimizing pipelines and implementing **incremental loads and parallel processing.**
Cross-Platform Integration: Migrated legacy Excel-based reports to **automated Power BI solutions**, improving scalability and enabling **self-service analytics.**
Awards: Received the "Rising Star Award" for outstanding performance, rapid issue resolution, and delivering optimized **SQL & Power BI reporting solutions** that enhanced business visibility.

Technical & Soft Skills

BI & Visualization Tools: Power BI (DAX, Power Query), MicroStrategy, Tableau, Looker Studio, Grafana.
Software: VS Code, Visual Studio, SSMS, Factory Talk Studio, Node-Red.
Programming & Databases: Python (Pandas, NumPy), SQL (MS-SQL, MySQL, PL/SQL), Advanced Excel (Pivot Tables, VLOOKUP, Macros)
Data Engineering: ETL/ELT Pipelines, Data Modeling, Data Warehousing, Jupyter Notebooks
Cloud & Development: AWS EC2, C#, .NET, Git, Agile/Scrum Methodologies
Analytics & Reporting: Statistical Analysis, SSRS, SAP Crystal Report, RDLC, MDM
Communication Protocols: Ethernet, OPC UA-DA, MQTT
Professional Strengths: Cross-team collaboration | Critical thinking & decision-making | Client & vendor coordination | Requirement gathering & analysis | BRD & FRD preparation | Stakeholder management | On-time project delivery

Professional Experience

Business Data Analyst — January 2023 – Present
INSTRUMENTATION AND CONTROL SOLUTIONS — Indore, Madhya Pradesh, India

- Developed 20+ Power BI & Tableau dashboards, **reducing manual reporting by 40% and saving 60+ hours/month.**
- Designed dimensional **data models and ETL** pipelines using SQL, Power Query, and **MySQL for 500K+ daily records.**
- **Automated KPI reporting** via SSRS & SAP Crystal Reports, **improving accuracy by 95%.**
- Translated business requirements into **BI solutions** through cross-functional **stakeholder collaboration.**
- Optimized and managed **multi-terabyte SQL Server & MySQL databases** for enterprise pharma clients.
- Mentored junior analysts on **Windows and web application development,** along with BI best practices.
- Managed large SQL Server and **MySQL databases (2 to 3 TB, billions of rows**) for pharma clients such as **Sun Pharma, Cipla, and Coca Cola etc.**

Associate Data Analyst & MicroStrategy Developer — August 2022 – December 2022
InfoCepts — Nagpur, Maharashtra, India

- Built **MicroStrategy dashboards and SQL data** models, **improving query performance by 35%.**
- Developed complex **SQL** logic using **CTEs, window functions**, and **stored procedures.**
- Performed **data validation** and quality checks, resolving **200+ inconsistencies.**

Junior IT Desktop Support Engineer September 2018 – May 2019
Cellcomm Solutions Ltd Bengaluru, Karnataka, India

- Supported **150+ users** with hardware, software, and **network troubleshooting.**
- Managed system deployment, configurations, and **IT asset documentation.**

Projects

Data Engineering, SQL Optimization & Enterprise Reporting
SQL | ETL | Data Warehousing | Data Modeling | SSRS | Crystal Reports

- Designed scalable **ETL pipelines** across cloud and on-prem systems for enterprise pharma clients.
- Converted OLTP systems into optimized **OLAP models**, improving reporting performance.
- Tuned SQL queries, stored procedures, and schema objects for **high-volume datasets**.
- Delivered automated reporting via **SSRS & Crystal Reports**, reducing report generation time drastically.
- Implemented **optimized schema objects, materialized views**, and **stored procedures**, improving performance of mission-critical pharma systems.
- Built a **Windows-based payroll PDF automation tool** using SMTP.

Data Visualization & BI Solutions
Python | Power BI | Grafana | Tableau | Node-RED | SQL Server | Looker Studio | Excel | API

- Developed interactive dashboards using **Power BI, Tableau, Looker, Grafana, and SQL, including API-based data integration.**
- Built near real-time IoT energy **monitoring dashboards by consuming APIs and KPI-driven** metrics with scheduled refresh.
- Created sales and operational **dashboards with geo-maps,** drill-throughs, filters, and **dynamic measures.**
- Architected clean and intuitive **dashboard UI layouts using Figma** for improved user experience and navigation.

Education

Rajiv Gandhi Prodyogiki Vishwavidyalaya Bhopal, Madhya Pradesh, India
Bachelor of Technology (Honours) in Electronics & Communications Engineering 2019 – 2022
Rajiv Gandhi Prodyogiki Vishwavidyalaya Nowgoan, Madhya Pradesh, India
Diploma in Electronics & Telecommunications Engineering 2015 – 2018

Certifications & Awards

Professional Certifications: Advanced SQL Certification (IBM) | Power BI Certification (Lumenore) | C# Fundamentals (Microsoft) | AI/ML for Geo Data Analysis (ISRO IIRS) | Python for Data Analytics (HP)
Recognition: Global Service Desk Professional Award for Excellence in Technical Support.
